## Objective

---

Motivated and detail-oriented 3rd-year Computer Engineering student with a strong foundation in MERN stack technologies. Seeking an internship opportunity to apply my skills in software development and contribute to innovative projects.

## Education

---

### Bachelor of Science in Computer Engineering

Your University, City, State

Expected Graduation: Month, Year

- Relevant Coursework: Data Structures, Web Development, Database Management, Software Engineering, Algorithms

## Technical Skills

---

- **Programming Languages:** JavaScript, HTML, CSS, Python
- **Frameworks & Libraries:** React.js, Node.js, Express.js, MongoDB
- **Tools & Technologies:** Git, Docker, RESTful APIs, Agile Development
- **Operating Systems:** Windows, Linux

## Projects

---

### MERN Stack E-commerce Application

Developed a full-stack e-commerce application using MongoDB, Express.js, React.js, and Node.js.

- Implemented user authentication, product management, and shopping cart functionalities.
- Enhanced user experience by optimizing the application for mobile devices, resulting in a 30% increase in mobile traffic.

### Personal Portfolio Website

Created a personal portfolio website to showcase projects and skills using HTML, CSS, and JavaScript.

- Integrated a contact form with backend support using Node.js and Express.js.
- Achieved a 50% increase in visitor engagement through improved design and functionality.

## Experience

---

### Technical Support Intern

Company Name, City, State

Month, Year – Month, Year

- Assisted in troubleshooting software and hardware issues for clients, improving response time by 20%.
- Collaborated with the development team to document and resolve bugs in existing applications.

## Extracurricular Activities

---

- Member of the Computer Engineering Club, participating in hackathons and coding competitions.
- Volunteer at Local Community Center, teaching basic programming skills to high school students.
